PROFESSIONAL EXPERIENCE

Orientation Leader

University of Calgary

Calgary, AB

September 2025 – Ongoing

- Welcomed and guided incoming first-year students, creating a positive, personalized first impression of campus life
- Listened to questions and recommended the right resources and services for each student's needs, building trust and confidence
- Led campus tours and supported students one-on-one and in groups in a busy, high-traffic environment

AIESEC - Junior Executive Team (Marketing)

University of Calgary

Calgary, AB

2025 – Present

- Collaborated with a cross-functional team on student engagement and professional development initiatives
- Shared knowledge and supported peers to help the team meet event and outreach goals
- Contributed to an inclusive, community-focused environment built around shared goals

PROJECTS

Infinite Bubble-Tea Marketing Plan & Product Development | *Branding and A/B testing*

- Led brand identity development for the "Infinite" bubble-tea concept targeting an 18–25 demographic, establishing visual language and positioning
- Designed and executed A/B testing with 200+ peers to refine packaging and pricing models, synthesizing feedback into go-to-market recommendations
- Collaborated with cross-functional team on competitive analysis and consumer surveys informing a projected 25% subscription conversion rate

Personal Budget & Financial Tracking Model | *Microsoft Excel, Financial Accounting, Data Analysis*

- Built a multi-sheet Excel workbook to track monthly income, fixed and variable expenses, and savings goals using formulas and conditional formatting
- Identified 3 discretionary expense categories driving simulated overspending, demonstrating practical application of managerial accounting principles
- Applied conditional formatting and data validation to flag budget variances, improving visibility of spending patterns

Break-Even Analysis Model | *Microsoft Excel, Managerial Accounting, Financial Modeling*

- Designed a dynamic Excel model to calculate break-even units and revenue for a hypothetical business using contribution margin analysis
- Built a sensitivity table across 9 pricing scenarios to assess the impact of price changes on profitability, applying core managerial accounting principles
- Computed contribution margin ratio and units required to achieve a target profit, demonstrating practical understanding of cost-volume-profit relationships

CERTIFICATIONS

- QuickBooks Online Certification — Intuit, 2026
- Excel for Accounting — LinkedIn Learning, 2026
- Forage Virtual Internship Certifications, 2026
